Before you Connect

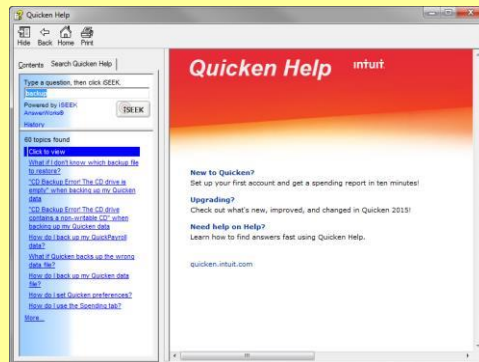

Before you set Quicken to download transactions you may need to contact your financial institution (FI) for the following information:

- Customer ID
- Personal Identification Number (PIN) or password

For Quicken Web Connect/Express Web Connect accounts, use the same customer ID and PIN/password as your financial institution website. For Direct Connect, they may be different. Please contact your financial institution to verify your Direct Connect login information.

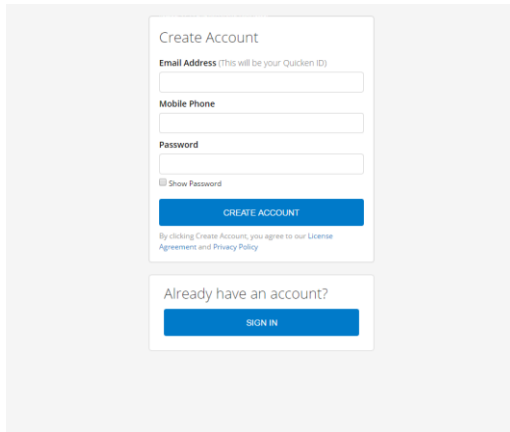

IMPORTANT:

We recommend that you back up your Quicken Data File before setting up online banking accounts for the first time. Choose **Help > Quicken Help** and search for **Back Up** for backup instructions.

Link Your Quicken Data File to Your Quicken ID

When you set up an account for online banking, Quicken requires you to link your Quicken data file to a Quicken ID. If you don't currently have a Quicken ID, you will need to create one.

The screenshot shows a 'Create Account' form with the following fields and options:

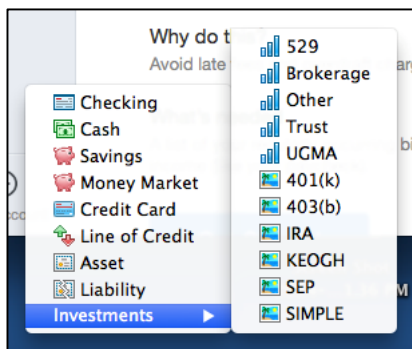

- Email Address** (This will be your Quicken ID)
- Mobile Phone**
- Password**
- Show Password
- CREATE ACCOUNT** button
- By clicking 'Create Account', you agree to our [License Agreement](#) and [Privacy Policy](#).
- Already have an account?**
- SIGN IN** button

Fill in the information to set up your Quicken ID and link your data file.

If you already have a Quicken ID, click "SIGN IN" under "Already have an account?" and sign in.

1. Choose **Tools > Add Account...**
2. Click the type of account you want to set up.
